 Continuation Sheet Attached**Brief Description of Arguments to be Presented:**

With respect to the rejection under §112, second paragraph, support for Claims 9 and 24 can be found at, for example, page 5, line 32 - page 8, line 23. The applied references fail to disclose and would not have rendered obvious "the drive means consuming the power generated by the fuel cell and forcibly circulating the fuel gas in the circulation route," as recited in claim 9 and "the drive pump consuming the power generated by the fuel cell and forcibly circulating the fuel gas in the circulation route," as recited in claim 24. Further, the combination of Kazuo and Margiotti is improper.
